

The Federal Communications Commission

Dear The Federal Communications Commission,

Dear FCC, I do not want to pay more for my telephone service! I urge you to please reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal would make my current service unaffordable.

Under the flat fee proposal you are considering, people who make very few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. I find this to be highly unfair!

I use my wireless phone for SAFETY, and SECURITY. I don't want to lose these benefits so that big businesses can pay less than their fair share. I respectfully ask you to reject the proposal to move the USF collection system to a flat-fee.

Please keep the USF Fair!
Thank you Laura Hein 10410 Old State Rd.
